The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states thUe

The Company must complete the business and marketing plans before any development can start on the design of the product suite. Over the next twelve months, the Company anticipates increasing its operating expenses and will need \$150,000 to complete the business and marketing plan and to fund basic operations of the Company.

There is no history upon which to base any assumption as to the likelihood that the Company will be successful in creating a product. We cannot provide investors with any assurance that if we create a product, that we will be successful in attracting customers and have the ability to generate any revenue. If we are unable to address these risks, there is a high probability that our business can fail, which will result in the loss of your entire investment.

6

OUR BUSINESS WILL FAIL IF WE DO NOT OBTAIN ADEQUATE FINANCING, RESULTING IN THE COMPLETE LOSS OF YOUR INVESTMENT

We will require additional financing to sustain our business operations. Over the next 12 months, we anticipate needing at least \$150,000 to complete the marketing and business plan and other operating expenses. Currently, we do not have any arrangements for financing and can provide no assurances to investors that we will be able to obtain any when required. If we don't raise additional capital, our business will fail.

RISKS RELATED TO INVESTING IN OUR COMPANY

OUR LACK OF AN OPERATING HISTORY GIVES NO ASSURANCE THAT OUR FUTURE OPERATIONS WILL RESULT IN ANY REVENUES, WHICH COULD RESULT IN THE SUSPENSION OR TERMINATION OF OUR OPERATIONS AND INVESTORS MAY LOOSE THEIR ENTIRE INVESTMENT

We were incorporated on February 23, 2010 and we have not created any product which is required to generate revenue. We are an early entry stage company in a very competitive market. We have no operating history upon which an evaluation of our future success or failure can be made.

Based upon current plans, we expect to incur operating losses in future periods because we will be incurring expenses and not generating revenues because we don't have a product. If and when we have a product, we cannot guarantee that we will be successful in generating revenues in the future. Failure to generate revenues will cause us to go out of business and you will lose your entire investment.

OUR OPERATING RESULTS MAY PROVE UNPREDICTABLE WHICH MAY IMPACT THE COMPANY AND THE VALUE OF THE INVESTMENT

Our operating results are likely to fluctuate significantly in the future due to a variety of factors, many of which we have no control over. Currently, we don't have a product or prototype. Factors that may cause our operating results to fluctuate significantly include: our inability to generate enough working capital from future equity sales, our ability to hire key personnel to help create a product, our inability to develop a product, and Mr. Johnson's time allocation to drive the business; and after we create a commercial product, the factors include: the level of commercial acceptance by the home improvement and home building market of our products; competitive landscape with other product suppliers, pricing, fluctuations in the demand for our product, and capital expenditures relating to expansion of our future business, operations and infrastructure and general economic conditions. If realized, any of these risks could have a materially adverse effect on our business, financial condition and operating results.

THE COMPANY'S SOLE OFFICER AND DIRECTOR MAY NOT BE IN A POSITION TO DEVOTE A MAJORITY OF HIS TIME TO THE COMPANY, WHICH MAY RESULT IN PERIODIC INTERRUPTIONS AND EVEN BUSINESS FAILURE.

Mr. Johnson, our sole officer and director, has other business interests and currently devotes approximately 25 to 30 hours per week to our operations. He provides limited consulting advice and services to L&H Air Co, a construction company. If Mr. Johnson is not able to devote sufficient time to run the Company, it may result in periodic interruptions in developing our business. acknowledge that you understand the risks associated with buying penny stocks and that you can absorb the loss of your entire investment. Penny stocks are low priced securities that do not have a very high trading volume. Consequently, the price of the stock is often volatile and you may not be able to buy or sell the stock when you want to.

Our offering is being made on a self-underwritten basis: no minimum number of shares must be sold in order for the offering to proceed. The offering price per share is \$0.01. The following table sets forth the potential net proceeds and the uses of proceeds assuming the sale of 25% 50% 75% and 100% respectively, of the securities offered for sale by the Company.

There are two major parts to the business and marketing plan, the product development strategy and marketing strategy. The company plans on using consultants and contractors to create the product development strategy. The Company anticipates the strategy will take 4 to 6 months and will cost approximately \$70,000. Shares of Common Stock	David Johnson (2) 2803 Isle Street Rocklin, CA 95765	9,000,000	100%
------------------------	--	-----------	------

(1) Based on 9,000,000 shares outstanding as of February 28, 2010.

(2) The person named above may be deemed to be a "parent" and "promoter" of our company, within the meaning of such terms under the Securities Act of 1933. Mr. Johnson is the only "parent" and "promoter" of the company.

For the period ended February 28, 2010, a total of 9,000,000 shares of common stock were issued to our sole officer and director, all of which are restricted securities, as defined in Rule 144 of the Rules and Regulations of the SEC promulgated under the Securities Act. Under Rule 144, the shares can be publicly sold, subject to volume restrictions and restrictions on the manner of sale, commencing one year after their acquisition. Under Rule 144, a shareholder can sell up to 1% of total outstanding shares every three months in brokers' transactions. Shares purchased in this offering, which will be immediately resalable, and sales of all of our other shares after applicable restrictions expire, could have a depressive effect on the market price, if any, of our common stock and the shares we are offering.

Our sole officer and director will continue to own the majority of our common stock after the offering, regardless of the number of shares sold. Since he will continue control our company after the offering, investors in this offering will be unable to change the course of our operations. Thus, the shares we are offering lack the value normally attributable to voting rights. This could result in a reduction in value of the shares you own because of their ineffective voting power. None of our common stock is subject to outstanding options, warrants, or securities convertible into common stock.

The company is hereby registering 3,000,000 of its common shares, in addition to the 9,000,000 shares currently issued and outstanding. The price per share is \$0.01 (please see "Plan of Distribution" below).

The 9,000,000 shares currently issued and outstanding were acquired by our sole officer and director for the period ended, February 28, 2010. We issued a total of 9,000,000 common shares for consideration of \$9,000, which was accounted for as a purchase of common stock.

DESCRIPTION OF SECURITIES

In the event the company receives payment for the sale of their shares, Hidden Ladder will receive all of the proceeds from such sales. Hidden Ladder is bearing all expenses in connection with the registration of the shares of the Company.

NON-CUMULATIVE VOTING

Holders of shares of our common stock do not have cumulative voting rights, which means that the holders of more than 50% of the outstanding shares, voting for the election of directors, can elect all of the directors to be elected, if they so choose, and, in that event, the holders of the remaining shares will not be able to elect any of our directors. After this offering is completed, and assuming all 3,000,000 shares being offered are sold, present stockholders will own approximately 75% of our outstanding shares.

CASH DIVIDENDS

As of the date of this prospectus, we have not declared or paid any cash dividends to stockholders. The declaration of any future cash dividend will be at the discretion of our Board of Directors and will depend upon our earnings, if any, our capital requirements and financial position, our general economic conditions, and other pertinent conditions.
